

IPAD & ITOUCH APPS for KIDS

Communication Assistance Tap to Talk Free Give your non-verbal child a voice! TapToTalk turns an iPhone™, iPad™ or iPod touch® into an augmentative and alternative communication (AAC) device. TapToTalk makes communication fun, like another “game” on this cool device. Just tap a picture and TapToTalk speaks. Each picture can lead to another screen of pictures.

This free TapToTalk™ app comes with a fully functional album that you can use with your child. If you want to create albums that are individualized to meet the specific needs of your child, visit the TapToTalk web site (www.taptotalk.com).

You'll learn about TapToTalk Designer, the online subscription service that you use to create your own AAC albums for your child. TapToTalk Designer includes a library of over 2,000 pictures. You can add your own pictures, photos and sounds. You can even record your own voice. Albums created in TapToTalk Designer are “synced” over the Internet directly to your iPhone™, iPad™ or iPod touch®.

TapToTalk is a must have app for special needs children with autism, down syndrome, cerebral palsy, apraxia and other speech delays.

Assistyx LLC is a member of Moms with Apps, a collaborative group of family-friendly developers seeking to promote quality apps for kids and families.

Look-2-Learn \$24.99 Look2Learn (L2L), a revolutionary AAC software application for the iPod Touch, iPhone, and iPad allows individuals to work at their communicative level using photographs to express wants and needs. The easy to use system integrates preloaded vocal output so that individuals can use their “voice”. In addition, users are able to record their own personalized audio and pair it with photos!

This user-friendly application was created with the belief that many augmentative systems are either too complicated or lack the ability to customize to the individual's needs. L2L offers a variety of features that can be quickly learned by the user and offers outstanding individualization. In addition, Look2Learn has a targeted assessment that can be downloaded at www.look2learn.com which will allow for easy setup and precise customization.
